

## Vaccine Prioritization At a Glance (last updated February 22, 2021)

This document offers a quick visualization of which states have identified people with intellectual and developmental disabilities (I/DD) and direct support professionals (DSPs) in high-priority tiers for receiving the COVID-19 vaccine. Cells in **green** indicate that the state *has* identified the stated population as high-priority, whereas cells in **red** indicate that the state *has not* done so. Cells in **yellow** indicate that the state's language is either vague or that it identifies populations with significant overlap (e.g., those at high risk or with underlying medical conditions).
