

June 14, 2021

The Honorable Chris Van Hollen  
United States Senator  
110 Hart Senate Office Building  
Washington, DC 20510

Dear Senator Van Hollen:

On behalf of the American Network of Community Options and Resources (ANCOR), I write to express our support for the Safe Environment from Countries Under Repression and Emergency Act (SECURE Act, S.306). We support providing a pathway to permanent residency for individuals benefitting from Temporary Protected Status (TPS) because many TPS recipients work for agencies supporting people with disabilities. Changes to the TPS program in recent years have affected the stability of supports for people with disabilities, in addition to causing much distress to TPS holders.

ANCOR is a national, nonprofit trade association representing more than 1,600 private community providers of services to people with disabilities, mostly funded by the Medicaid program. Combined, we support over one million individuals with disabilities, and work to share policy, shape solutions and strengthen the community. The Direct Support Professionals (DSPs) our members employ are on the frontlines of the pandemic, keeping people with disabilities healthy and safe in the community. They help people with disabilities find employment, perform daily hygiene, go grocery shopping, and make healthy decisions.

The SECURE Act recognizes the important contributions that TPS recipients have made to U.S. society and can continue to offer after they receive permanent residency. Within the field of disability supports, TPS recipients have played an important role helping people with disabilities live full and independent lives in their communities and participating in society. The DSP field has a significant recruitment and retention [crisis](#), with a current average national yearly [turnover rate](#) of 42.8 percent. The ensuing vacancies [have repercussions](#) for individuals supported while further exhausting remaining staff. Decades-long attempts to recruit workers born in the United States for this rewarding but emotionally and physically challenging profession have not been successful, so the stability in services provided by DSPs who are TPS recipients has been important to the well-being of people with disabilities.

We are grateful for your work to provide stability and security for TPS recipients, and by extension the broader community which relies on them. If you have more questions on the DSP workforce or other disability topics, please feel free to reach out to me at [smeek@ancor.org](mailto:smeek@ancor.org).

Sincerely,
