

Cyber Liability

Coverage for Data Breaches, Privacy Violations & More

Data Privacy is the largest emerging risk for businesses and organizations in the 21st century

While many organizations don't think they have a need for Cyber Liability, potential damage from just one breach exposing personal information can have costly implications long after an incident.

What is considered personally identifiable information?

- Bank Account Numbers
- Birth / Death Certificate
- Credit Card Number / Report
- Date of Birth
- Driver's License Number
- Home Address
- Medicaid Numbers
- Medical Records
- Social Security or Tax ID
- Username / Password
